THE DAILY NEWS.

Newport:

THURSDAY, JANUARY 13, 1845.

BY O. F. JACKSON, 97-THAMES ST

ITALY.—There is no country in which our native language is not spoken, with which we sympathise more than we do with Italy. Our appreciation of all that is grand and noble in Art, Arms and Literature, is blended with the history of that country. The discovery of our own land is owing to the foresight and intrepidity of an Italian. The modern destroyer of dynastic despotism was an Italian. The fervid sun, which fosters into prolific life the flowers of that beautiful clime seems, also, to have lent its intensity to the genius of the people, and thus, in all ages, has Italy exhibited a spectacle of intellectual grandeur from which the world has received some of its wisest lessons. When the military power of ancient Rome became effete, the genius of Italy did not perish in the past, but, with a holier zeal and loftier ambition, it built up, upon the ruins of heathenism, the stately edifice of Christianity.—The Eagle and the Emperor gave place to the Cross and the Pontiff; and, thus, Religion obtained a wider and more perfect dominion for the successor of St. Peter, than the glaive had ever worn for the Imperial Caesars. This, too, was a dominion built on the hearts and sympathies of mankind; and, connected as it was with their eternal welfare, it maintained a permanent influence throughout Christendom, against which political power and intrigue could avail but little.

Ages rolled on, and the Pope was not only the spiritual Sovereign of Catholics, but his power was universally acknowledged through Europe. Thrones trembled under his censure. The eye of every politician was turned to Rome. The mesh of ecclesiastical machinery was spread over every nook and corner of the Continent and the British Isles. Not a film of the vast web trembled, but the pulsation was felt by the Sovereign Pontiff; and hence the priestly police was enabled to be instructed in, and to control by, the temporal will of their

In the course of time, this mingling of politics and religion corrupted the insatiable Government of the Church; and the Pope, from being the Distributor of the Earth among dependent Kings, dwindled into a mere religious cypher, whose very capitals and person were controlled by the stipendiaries of Austria.

Such has been the condition of the Papal Government, and indeed, the condition of all Italy, until within the last year; for the Peninsula, cut up as it is among a number of petty Sovereigns, who are, more or less, predators of Austria, had no principle of progress or Union within itself, by means of which it could gain ground against the despotism of METTERNICH and the imbecile Emperor he governs. But within this period an event has occurred, which we have always believed was the only one that could regenerate Italy. A new Pope has ascended the throne, in the vigor of manhood, full of intelligence and goodness, and thoroughly acquainted with the condition of his people. Thus it is that Virtue, or the wish to do right and act justly, have once more been united to the temporal power of a great Prince, whilst his spiritual influence, as the head of a church, gives a weight and authoritative impulse to his acts, which they could never receive from mere political sources. Religion nerves the sceptre, and the disinterested States of Italy are re-united politically and nationally, by the power of a common faith. Catholic Austria, feeble and rotten in its traditional power, trembles before the renewed strength of Catholic, spiritual and temporal power blended in the hands of a young, generous and wise Pontiff; and we must continue to hope that he will regard the progressive spirit of the age as his best guide in the present condition of Europe whilst he will aid in making the rest of Italy free, after he has purged the Papal States of all the abuses and bad government under which they have suffered during the corrupt reigns of some of his predecessors. The reforms for which the world lauds him, prove that these corruptions existed; and we therefore hail Pius IX., as the best friend that rational liberty possesses in the world.

The movement of Pius IX., as we un-

derstand it, is not revolutionary, but conservative of his independence, and progressive in his internal administration of the affairs of Rome. What he will hereafter propose or effect in the regeneration of Roman Catholic Europe, remains to be seen; but, as individuals, we bid him God-speed in his righteous and majestic task,—and may he once more revive the original grandeur and glory of Rome, as well as the rest of his dominion.

"It may be that the stone which thou art heavying
From off thy people's neck, shall fall and crush them;

"It may be that the sudden flood shall push thee From off the rock, whence, prophet-like, behav- ing

In God's great future, thou dost set it free!

Yet heave it, heave it heaven high, nor fear To be overwhelmed in the first wild career

Oft those long-prison'd tides of liberty.

That stone which thou hast lifted from the heart Of a whole nation, shall become to thee A glorious monument, such as no art

E're piled above a mortal memory:

Falling beneath it, thou shalt have a tomb,

That shall make low the loftiest dome in Rome!"

—The sixth lecture before the Association of Mechanics and Manufacturers, will be delivered, at Armory Hall, this evening, by the Rev. Mr. Washburn, of Fall River; his subject is "The Ruins of Pompeii, from personal observation." This is certainly a very interesting theme, and as Mr. Washburn is a close observer of men and things, and has a discriminating mind, we may anticipate an intellectual repast of more than ordinary interest.

ERROR.—In the thirteenth section of our substance of the City Charter, as reported by the Committee, in yesterday's paper, we stated that the number necessary to adopt it was four-sevenths of those voting; it should have read "by a majority of those voting." "Four-sevenths" was the number recommended by the committee, but "a majority" was substituted by the meeting.

—The Perry did not leave here yesterday morning until eleven o'clock, and went directly to Providence.

THE FREMONT COURT MARTIAL.—Quite an exciting scene took place at the Court on Saturday, in consequence of a witness refusing to answer Col. Fremont's questions whether or not Gen. Kearney, was the author of certain questions produced during the trial. Col. Benton demanded Gen. Kearney and exonerated the court and witnesses. The court was consequently cleared of all disinterested parties and it is said that the matter will not end thus.

—The Ohio Democratic State Convention, at Columbus, has nominated General Cass as President, by a vote of 237 to 82.

—It is reported that Gen. Shields, who is now in the United States, has applied for the command of an expedition to open a route from Taupico to San Luis Potosi. A communication from Washington states that the administration have determined to recall Gen. Scott, but no mention is made of his successor. A court martial is to be held at Vera Cruz to try Generals Worth and Pillow and Col. Duncan on the charges preferred against them by Gen. Scott. General Scott has issued orders requesting the immediate return to Mexico and to their several commands, of all officers now in the U. States on leave of absence. Steamer Portland, at New Orleans from Vera Cruz, has brought home 100 discharged and disabled soldiers.

—The order from the Department, recalling Gen. Scott, has been countermanded, by telegraph, waiting the return of Gen. Pierce, it is said, who is acquainted with the difficulties in the Army, to hear his story.

—Hon. Henry Clay has arrived in Washington, and taken rooms at the United States Hotel.

—Ex-President Van Buren and Tyler are in New York.

—The colored people of New York are taking measures to send out some of their most respectable men to Liberia, to procure information, with the intention of making a great movement in that direction, if the report should be favorable.

—The abolition of slavery in the Swedish island of St. Barts and its dependencies was duly proclaimed there on the 8th of October.

THE CENAU STEAMERS.—The average passage from Liverpool, of this line of steamers, during the past year, was 15 days 5 hours. The shortest passage was made by the Britannia (12 days) and the longest by the Hibernia (21 1/2 days.)

Thirtieth Congress—First Session.

SENATE—Monday.—The Senate convened at 12 o'clock, and after the transaction of the ordinary routine of business, a number of memorials and petitions were presented, among which was one by Mr. Cameron, from the citizens of Pennsylvania, to abolish slavery in the District of Columbia.

The Vice President laid before the Senate a letter from the reporter to that body, stating the reasons of the imperfect manner in which the reports had hitherto appeared, and asking a more convenient position for himself and assistants.

Mr. Clayton presented a petition from the Friends of New York, Vermont, Michigan, &c., for the adoption of measures for the termination of the war.

Mr. Johnson (Louisiana) on pensions, reported a bill granting half pay to widows and orphans of volunteers who were killed in Mexico, pursuant to the President's message. It was read a first time.

Mr. Yulee, on naval affairs, reported a bill making an additional appropriation of a hundred and sixty thousand dollars for the Dry Dock at Brooklyn Navy Yard.

After a few remarks from Mr. Dickinson, who stated that the subject was fully discussed last session, it was passed.

A motion was made by Mr. Yulee for a bill for providing additional pursers, which was taken up.

Mr. Badger's amendment, making them commissioned officers, appointed by advice and consent of the Senate, was adopted.

The bill passed.

Mr. Douglass introduced a bill to establish a territorial government in Oregon.

Mr. Hannegan, of Indiana, introduced three resolutions, to the effect:

1st. That no treaty can be made with Mexico which does not guarantee to the United States a good military boundary.

2d. No intervention of any European power can be admitted in the affairs of Mexico.

3d. That it may become proper to hold Mexico as a province of the United States.

Mr. Hannegan asked that the resolutions be printed and made the order this day two weeks, which was agreed to.

Mr. Revere Johnson then obtained the

joumeynt, in a speech on the origin of this war, and the ten regiment bill; he is to conclude to-morrow. As far as he has gone, he has argued too antagonistic principles.

First: That the war was begun by Mexico and that she is responsible. Second: That the war was begun by the President and that he is responsible.

HOUSE—Monday.—The first business in order was the report of the Committee of the Whole on the resolution reviewing the Southern Mail arrangements.

On motion of Mr. Vinton, the House went into Committee of the Whole on the state of the Union, Mr. J. R. Ingersoll in the chair, on the reference of the President's annual message to appropriate committees.

Mr. Stewart, of Penn., obtained the floor, after which the committee rose.

Mr. J. Q. Adams offered a resolution granting the use of the Hall on the evening of the 8th inst., to the Colonization Society. Resolution adopted.

Mr. Cooke reported a joint resolution authorizing the Commissioner of pensions to employ temporarily additional clerks, appropriating \$11,998 for that purpose.

It was read twice, when, on motion of Mr. McKay, it was referred to the Committee on the state of the Union. House then adjourned.

SENATE—Tuesday.—A bill to increase the medical staff of the army was reported.

A bill was presented to amend the judicial system of the United States. It was read twice and referred.

Mr. Davis offered a resolution calling upon the President to communicate to the Senate the letters from Gens. Taylor and Scott, on the subject of freed contributions.

Mr. Baldwin of Conn. submitted a resolution calling upon the President for the correspondence of Mr. Trist in relation to the negotiation of peace during the armistice.—Both these resolutions lie over.

The resolution admitting Messrs. Ritchie and Heiss to the floor of the Senate, was adopted.

The discussion on the Ten Regiment Bill was resumed.

Reverdy Johnson of Maryland concluded his speech, and was followed by Messrs. Clayton, Crittenden and Cass.

The Senate adjourned.

HOUSE—Tuesday.—Numerous private bills were reported, with a resolution providing an alphabetical list of the private claims

from the fourteenth to the twenty-ninth Congress, inclusive, and additional clerks.

A debate ensued in committee of the whole, upon the President's Message.

Mr. Stewart of Penn., replied to Mr. McClelland, reviewing and condemning the measures of the Administration.

Mr. Venable followed in favor of taking New Mexico and California as indemnity.

Mr. Rockwell of Conn., followed against the late Veto Message.

The House adjourned.

General Assembly—Fourth Session.

HOUSE—Monday.—Met pursuant to adjournment, and no quorum being present, it adjourned.

Tuesday.—A quorum being present both Houses proceeded to business.

House.—Petition of New England Commercial Bank for amendment of charter, referred to Committee on Corporations.

Petition of John Hicks, for liberation of Samuel Hicks. Referred to Committee on Finance.

Resolution assigning a day for the trial of petitions, read and laid on the table.

Petition of John B. Gray, for release from prison. Referred to Committee on Judiciary.

Resolutions calling upon the Banks for information as to the annual average of their dividends and profits.

Mr. Cranston said that he desired the information called for in these resolutions.—He thought it would take but a few hours for the Cashiers of Banks to furnish it.

Mr. Hutchins said that he did not believe the banks could impart the information at this session.

Mr. Barber opposed the resolutions.—They would lead to other resolutions for information, and unnecessary discussions.

Mr. Buffum also opposed the passage of the resolutions.

On motion of Mr. Cranston, the resolutions were laid on the table for the present.

Mr. Buffum introduced a resolution instructing our Senators and requesting our Representatives in Congress to approve the laying a duty on tea and coffee.

Mr. Cranston called up the resolution assigning a day for the trial of petitions. After a brief debate it was again laid upon the table.

Memorial of Board of Aldermen of Providence to strike certain names from city registry. Referred to Committee on Judiciary.

Communication from Harvard University relative to a donation of the laws of this State; and resolutions from the State of Tennessee approving of Mr. A. Whitney's railroad. Read and ordered on file in the Secretary's office.

Resolution relative to a duty upon tea and coffee was called up.

Mr. Buffum said that it would be very unjust and unreasonable to tax the necessities of life. It would impose an oppressive burden upon the people in order to raise a revenue.

Mr. Ames desired to know what we had to do with this subject. He thought we had sufficient to do to attend to the finances of this State. This meddling in the affairs of the nation places us in either a ridiculous position. He insisted that the subject should be deferred until we saw some reason to apprehend the consequences contemplated in the resolution.

Mr. Buffum said that the derangement in the finances of our State was an additional reason why the resolution should be passed. The resolution passed.

The resolution calling upon the banks for information, &c., was called up, and after some discussion, in which Messrs. Whipple, Cranston, Barber, Hutchins, J. Manchester, Hidden, and Buffum, participated, the House adjourned.

CURIOS.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Brown's Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundant proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medicinal qualities of this most valuable root.

MEDICAL USES OF THE WILD CHERRY.—Ever since the settlement of America, Wild Cherry has been known to possess very important medicinal virtue. Every body knew this fact, but nobody knew how to extract its essential properties. Every mother gives Wild Cherry tea to her children for worms, for colds, and for almost every disease; and adults throughout our country are in the habit of making a compound or syrup of wild cherry bark, and other ingredients, to be used in spring as an antidote to complaints incident to that changeable season. It is found by experiment that the wild cherry possesses even far more important qualities than was ascribed to it. For the first stages of Consumption, Asthma, no matter how long standing, Coughs, Liver Complaint, etc., it

is proved to be the best medicine known to man.—Dr. Wistar's Balsam of Wild Cherry is a chemical extract, combined with a similar extract from Tar, which enhances its value. Its success in curing Pulmonary disease, in almost every stage, after our best physicians could do no more, has astonished the faculty, and led them to confess that Wistar's Balsam of Wild Cherry possesses a principle heretofore unknown among medical men.

None genuine, unless signed I. BUTTS on the wrapper.

—One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists.—We have now a clear understanding of the different action of aliment, poisons, and remedial agents, and the long deluded theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.—The great object, therefore, is to ascertain what remedy will most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SANDY'S SARSAPARILLA, is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this uniling purifier of the blood—the blood is the channel through which disease finds its way to the various organs of the body,

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton-st., N. Y.

Sold also by Dr. R. B. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, For sale by R. J. TAYLOR.

[Extract of a letter from Dr. William of Vt.]

Dear Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to

WINTER evenings and YOUNG'S Variety

Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1.75 to \$2.12 per bushel; shell-harbs \$2 per bushel; peanuts \$1.62 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12cts per pound; we sell these last named articles at wholesale prices. Prunes 20cts per pound; grapes 25cts; new citron 28cts; preserved ginger \$1.1 per jar, or 30cts per pound, in small quantities; candies and all kinds of confectionary cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling.

Also several kinds of Gough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Pansy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor straps, hair clothes, tooth and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, combs of all kinds, cologne, hair oil and perfume, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

New sweet cider on draught or by the barrel.

THE

The great and only Successful Remedy for the cure of Consumption,
IS Dr. E. W. Vondersmith's INDIAN COUGH BALM and LUNG BALSAM.

Disease of the Lungs and Throat cured.

White Plains, April 29, 1847.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton; my throat was very much ulcerated. I had laudanum applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vondersmith's Medicine. He insisted upon my trying Dr. V.'s, and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow frothy matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every one to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,

EDWARD C. THOMPSON.

Swear before me this 21st day of April, 1847.

A. J. MICKLE, Mayor of the city of N. Y.

Injunction of the Lungs.

New York, June 19, 1847.

Dr. Vondersmith:—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing fits, then I thought it was impossible for me to survive unless I could get relief. The excessive night sweats, had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vondersmith's Indian Cough Balm and Lung Balsam. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and my result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vondersmith's invaluable medicine, that I would be mouldering in the silent grave.—Therefore I believe that I am doing nothing but what is just, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,

JAMES HENDERSON.

No. 703 Washington street.

Swear before me this 19th day of June, 1847.

W. V. BRADY, Mayor of the City of New York.

Consumption.

Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing tub; I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c. ROBERT WILLSEY.

Swear before me this 10th day of June 1847.

W. V. BRADY, Mayor of the City of N. Y.

Principal Office, No. 36, Barclay Street, N. Y.

Townsend's Sarsaparilla.

A supply of the above is just received direct from Dr. Townsend and for sale by

Aug 10 R. R. HAZZARD,

near the Court House.

Look at This.

If Rev. B. HIBBARD'S Vegetable and Anti-Cold FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them,—if you do not find that one of these pills does more good than four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Hall's Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one-quarter of a pill, of 7 years and over, half a pill. These Pill are purely VEGETABLE, and may be taken under all circumstances, without regard to drinks or diet.

Agents in Newport PHILIP RIDER, R. J. TAYLOR, and C. G. C. HAZZARD. Aug 30

Fruit, Confectionary and Variety Store.

THE subscriber respectfully informs the inhabitants of Newport and its vicinity, that he has taken the store at the corner of Washington Square and Thames street, where he intends keeping all kinds of green and dried Fruit, Confectionery, Preserves, Pickles, Syrups, Catchups, Nuts, Bird Seed, and Bird Cages, Baskets, Fine Cat Clothing, Turkish and American Smoking Tobacco, Sugars, Soda and Mineral Waters, and a variety of other articles too numerous to mention. A share of public patronage is respectfully solicited. [See 10] ALFRED WILSON.

FRESH FRUIT received from New York every morning

Hyer's Pills.

The American Improved Hygeian Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.—
This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly; after the most approved method of the times; but based all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.—During the last twenty years it has worked its way into extensive use, *widely upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—say occasionally in journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and *knows it to be valuable in most of the complaints incident to the human system*. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it then. Read, try, and then judge.

General depot 140 Fulton st. 2d floor, N. York between Nassau and Broadway.

P. PRICE, Sole Proprietor.

Sold by RIDER, Confectioner, 67 Thames street, Newport; and J. H. TAYLOR Druggist 58 North Main-st. Providence, R. I.

—A pamphlet setting forth its uses and containing valuable testimonials, may be had gratis, at the general depot, and of agents. Pre-cure and read it.

July 1

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It cleaves the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, dispenses the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicacy and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGLE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by WM. BOGLE, accompanies each bottle.

Aug 24—ly.

Roake's Iodine Linament.

SAFE and certain cure for Rheumatism, either chronic or inflammatory—Paralysis, or loss of the use of the limbs, contractions of cords and muscles, and gout, it matters not of how long standing; sprains, bruises, tumors, hard swellings and enlarged joints, yield to a few applications of this Linament. It has been used with wonderful success in scrofula or king's evil, enlarged glands, diseases of the spine and hip joints, tic doloreux, and all nervous affections. It is invaluable, and acts like a charm, stopping the bleeding of flesh wounds, and causing them to heal in a few days. It has never been known to fail curing the most stubborn ulcers or fever sores and swelled legs, pain across the kidneys, in the chest, side, also stiff neck, sore throat and croup.

It speedily and effectually eradicates cutaneous eruptions of the skin, in the form of salt rheum, erysipelas, pimplas, ringworm or tetter. Barber's itch, scald head, &c. It instantly removes toothache and headache. It extracts the pain and cures corns, bunions, chilblains, &c. Sold by R. J. TAYLOR. Agent for Newport.

M. ABRAHAM VANDERBEEK, of 98 Avenue D., New York, certifies that his head was entirely bald on the top, and by the use of two 3s bottles of Jones' Coral Hair Restorative, he has a good crop of hair, and will soon have it long and thick.

Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1847, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.

Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1847, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.
